a
metric scalars diverge at r_0
curvature scalars of $g_{\mu\nu}$
$K r_0^4$
$|R|\, r_0^2$
Schwarzschild K
at same areal radius
r/r_0
b
gauge invariant finite at r_0
$F \cdot F\, r_0^4$
11/4
r/r_0
c
time freezes inside the GR horizon
composite gravity
Schwarzschild
$\mathcal{R} = 3r_0/2$
$\mathcal{R} = r_s$
$B = -g_{00}$
areal radius $\mathcal{R}/r_s$
